

# The LMS-Patriot Project

## MAKING THE BOILER A REALITY

### REGISTRATION OF INTEREST FOR BOILER FUNDRAISING BROCHURE

Work is currently in progress to build an all new traditional Fowler boiler with copper firebox for the new 'Patriot' steam locomotive 'The Unknown Warrior'. In 2012 an order was placed for the first section of the boiler to be constructed - the smokebox. This and many other parts have been delivered to Llangollen Railway Works in North Wales where the loco is being assembled.

The aim is to have the whole boiler completed by November 2018. The total cost is expected to be in the region of £480,000. To achieve this we need to raise additional funds. The boiler loan scheme and donations have enabled the project to raise over £300,000 but we still need further funds to complete the boiler. In 2013 the LMS-Patriot Company issued a Boiler Fundraising Brochure, and the Company is seeking loans to complete the construction of the boiler. A very favourable 2.5% Compound Interest rate is been offered on the loan.

To request a Boiler Fundraising Brochure with full details and an application form, please return the tear off slip below or email: [info@lms-patriot.org.uk](mailto:info@lms-patriot.org.uk)

Please send me a **Boiler Fundraising Brochure**. Please note that requesting a brochure does not create any obligation on your part to participate in this scheme. You are advised to seek your own independent professional advice regarding the scheme. The brochure will contain more details of the scheme and an application form.
